## **Full Page Newspaper Ads – Read all about it!!!**

When groups of people have been discriminated against, lied about, taken advantage of they have taken full page ads out in a few featured newspapers to gain attention and national, worldwide exposure.

A few of the heirs work in journalism, media or have good news media contacts. They have advised us one of the best ways to move forward is get the message out.

Why the media sometimes does not want to pick up a press release. First the media news rooms are flooded with thousands of emails a day. Something would have to stand out and get to a desk of someone who thinks the story is good enough to follow up on.

The media wants to cover news that will get viewers, rankings and make money – whether they spin the story as true or false. They don't have a lot of time to research people who claim things, and who do not give them enough evidence to take it to the editor and get approval to run with a deeper investigation or story.

*That's the hard truth of how the news media works today.*

***But the world will be forced to see OUR STORY when we begin  
running the ads.***

One big example was people who saw a TWA flight shot down years ago, and overwhelming evidence it was covered up. Instead of being defeated they took out this full page ad. It got a lot of attention and a lot of independent reporters started doing their own investigations.

Our ad is similar because we are outraged! We needed a website to link the people who read the ad to. So the Voice of Change has sponsored a website and began the work. We will let you know the final costs later. The site is SpanishLandGrantHeirs.Com – (not affiliated or anything to do with spanishlandgrants.com).

**We are the 14,000+ Spanish Land Grant Heirs who have been Cheated Out of Billion – Trillions of Dollars in Royalties Paid & Unpaid to the State of Texas by the Oil & Gas Companies And We Won't Be Silenced Any Longer!**

We are the 14,000 + adjudicated Spanish & Mexican land grant heirs who are seeking justice for years of crimes against our families rightful inheritance from murder and outright theft of Trillions of dollars in royalties paid in to the State of Texas trust fund, and not released to us.

**We are OUTRAGED** the State of Texas won't pay us our royalties and outraged even more the State has mis-reporting's, and have spent the Trillions of dollars in royalties for the last 100's of years, that were supposed to be held in a trust fund – not to mention the royalties that are not being paid, unreported, or unaccounted for (without any audit or accountability). [6]

**We are OUTRAGED** that the Oil & Gas companies purposely don't report some drilling's so they don't have to pay the royalties to get richer, and that the State of Texas does not audit or hold them accountable!

**We are OUTRAGED** that crooked politicians have allowed elites to take some of our ancestor's land by theft, fraud, murder and political chicanery!

**We are INCENSED** that our lead attorneys have illegal and suddenly quit the case, stole over 8.5 Million in payments from our litigation trust fund, kept our original documents and case files and that the FBI has done nothing about it!

**We are SHOCKED** at the length the politicians, oil and gas companies and the State of Texas goes to discredit us, ignore our claims and cover-up the largest ongoing fraud & corruption scam to this date in history of the United States!

## **IT IS TIME FOR THEM TO BE EXPOSED!**

Here are a few of the hundreds of facts, laws and history we and our ancestors have endured for hundreds of years:

### **MURDER....**

Since oil was discovered in Texas many of our ancestors were murdered to steal their lands. [9]

### **FRAUD....**

Those with money forged fake deeds to steal the land from the rightful owners, or cheated out of agreements [10]

### **CORRUPTION...**

Oil & Gas companies have many politicians & attorneys on their payroll; this is why it makes it so difficult to progress. Oklahoma had a similar story, until a whistleblower exposed them. But it does not stop there.

### **THINK OF IT!**

For years this has went on, only noticed to those who live in San Antonio Texas or other parts of Texas. For years over 20,000 heirs, attorneys, local news media, experts have been fighting for our cause and all the politicians, oil & gas companies do is try to discredit our claim. It took the then governor Rick Perry to appoint oil & gas industry attorneys, and appointees on the oil and gas companies' payroll to a 2013 Texas HB724 to try and discredit us more. They had no interest in conducting a legal, fair process and failed to investigate and fulfill the requirements of the bill.

*The Comptroller for the state admitted there is money, and they are missing reporting, and are not even aware of several thousand drilling sites, that the Texas Railroad Commission monitors....*

# AMERICA MUST KNOW THE TRUTH! WE WILL NOT BE SILENCED!

*Sponsored by the Voice of Change Network*

Although the site is not finished yet, it will be near the first phase of competition in the next weeks. That will include 12 articles, documents, and proof supporting our claims.

How can you help? We will need to fund-raise enough money – Donate to this project – to take out these expensive ads, much of which could be easily covered by the heirs in the federal lawsuit, but also could be sponsors and/or partners. We also need people who are good at Texas history and research. We need an overwhelming support of clear concise evidence that supports our case. Photos, videos, documents, and laws are good sources. As we speak we have some people looking into getting some of the missing documents that the State of Texas is trying to hide or permanently dispose of.

We advise you to share this with everybody, and check back weekly to the new website for more updates as it progresses. If we can get 14,000 following and involved that will be a major victory and it should not be that difficult. We should be able to get over 20,000 in the next few months.
